To Whom It May Concern:

It is a pleasure to recommend the services of interior designer Efrat Segal who remodeled the office suite at The American Center, Jerusalem. We are delighted with the results.

Efrat planned the layout for the office suite, prepared the design for the custom-made furniture, assisted in selecting colors and materials and advised the carpenters who executed the work. No detail of the project was too small for Efrat's careful attention. Her innovative ideas, sense of color and use of materials contributed to a superb job. The office is aesthetically pleasing and comfortable to work in.

Efrat's gracious manner and expertise combined with her understanding of our needs and wishes. She is pleasant, sensitive and responsive, and the design was submitted on schedule. Her professional demeanor made working with her a pleasure.

I am confident that Efrat will bring the same professional and personal skills to any job she undertakes.

Sincerely,

A handwritten signature in black ink, appearing to read 'Sri Kulkarni', with a long horizontal flourish extending to the right.
